Notes:

(1) P.A. 96-212, effective July 1, 1996, established the Connecticut Lottery Corporation (CLC) to operate and manage the lottery. The fiscal year 1997 thru 2005 figures are from the CLC's audited financial statements, which show General Fund transfers as one lump sum rather than by game. The CLC also maintains its books on an accrual basis in accordance with generally accepted accounting principles (GAAP) for governmental enterprise funds, which is similar to private business enterprise accounting. Accordingly, the Instant game sales total includes an accrual for partially sold ticket packs that have been activated by agents, and General Fund transfers are shown net of operating expenses. (The Division of Special Revenue, which operated the lottery until June 30, 1996, maintained its records on the modified accrual, fund accounting basis used by the State of Connecticut. Using this method, Instant sales were recorded on a cash basis as fully sold packs were "settled" by agents, and General Fund transfers were shown without regard to most operating expenses, which were charged to a different fund from that used to record sales.)

Section 12-812 of the Connecticut General Statutes provides that the balance in the lottery fund which exceeds the current needs of the corporation for the payment of prizes, the payment of current operating expenses and funding of approved reserves of the corporation be transferred to the General Fund.
